## Privacy Policy

This privacy policy covers the Interwebnet L.L.C. treatment of personally identifiable information that we may collect when you are on our site, and when you use our services. This policy also applies to the Interwebnet L.L.C. treatment of any personally identifiable information that our business partners may share with us. This policy does not apply to the practices of companies that we do not own or control, or to people that we do not employ or manage.

**Information Collection and Use** We may collect personally identifiable information when you visit or use our pages. We may also receive personally identifiable information from our business partners. We also automatically receive and record information on our server logs from your browser including your IP address, and the page you requested.

We may use this information for three general purposes: to customize the content you see, to fulfill your requests for certain services and information, and to contact you. Our policy here at Interweb, is one of the utmost respect for your personal privacy. Privacy is what makes making payments or shopping online so satisfying. This is why we've developed policies for customer privacy that all of our employees must follow:

All online payments and orders are processed using secure servers that utilize the technology called SSL (Secure Socket Layering). This encrypts the process so that others cannot intercept your information online through hacking attempts. No customer information is EVER transmitted by electronic mail, to include but not limited to the list of personal information in the next section of this Privacy Statement. Along with encryption of your personal information, if we get an online payment, we've checked it thoroughly. We use a sophisticated electronic system to check for misused or stolen account numbers and verify information.

If anything is unusual about the payment, such as the shipping address being different from the billing address, we ALWAYS call the account holder. When calling the cardholder, we ask specific questions about the payment that only the account holder would know if he/she actually permitted it. If we're provided misinformation (ie- a fake telephone number, or account number), we report the incident and tracking information to the issuing bank for investigation of fraud. We do not allow strange transactions, such as international orders being shipped to international addresses while being billed to a stateside account without prior consent of the account holder. Even if the phone number is international, we call first.

No personal information belonging to customers will be given to any third party for ANY reason.

No spam will be tolerated, either of our company email boxes, or of anyone else's email boxes. (SPAM = unsolicited advertising in one's email box). Accounts performing such activities will be immediately terminated and subject to being penalized the fullest extent of state and federal laws, including the payment of all attorney and/or court costs.
